DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

2. Claims 1-17 are rejected under 35 U.S.C. 102(e) as being anticipated by Takaoka (US 6,693,718).

With regard to claims 1-17 Takaoka either explicitly or inherently discloses all of the claimed circuitry as is evidenced by Takaoka disclosing an image processing apparatus which obtains output result faithful to an original image in accordance with profile of the display device or printer. The image data is stored with a profile and color matching is performed in accordance with the profile of the output device (note col 9, line 50 – col 10, line 13).

Response to Arguments

3. Applicant's arguments, see Amendment C, filed 4/19/04, with respect to the rejection(s) of claim(s) 1 and 16 under 102 have been fully considered and are persuasive. Therefore, the rejection has been withdrawn. However, upon further consideration, a new ground(s) of rejection is made in view of Takaoka (US 6,693,718).
